You might have heard lots of people talking about something called the "Coronavirus."
Coronavirus is a type of virus that can make you feel sick.

Some people also call me
COVID-19
It is the sickness I cause.
COVID is short for coronavirus
disease.

Coronavirus is a big word, but did you know that "corona" means crown? When you look at coronavirus under a microscope, a part of the virus looks like a crown.

People in many parts of the world have gotten sick because coronavirus spreads easily from person to person.

Coronavirus can travel through the air in a sneeze or cough.

It can also spread when people touch something the virus has been on, like hands or door handles.

This is why you might see some people wearing masks and gloves.

If people get coronavirus, they may get a high fever, feel tired, cough, have a sore throat or have a hard time breathing.

Most people feel only a little bit sick and ***GET BETTER QUICKLY***
It feels a lot like when you have a cold or the flu

There are people who are working hard to make sure that everyone stays

SAFE AND HEALTHY

The Government and health workers are doing their best to fight coronavirus. They are preparing places to care for people if they get sick.

There are also things they want us to do to keep from catching coronavirus and spreading it to others. If we all do these things, we will help keep coronavirus away from us and others.

It is important that you **WASH YOUR HANDS OFTEN**

-Wash your hands before you touch your face, eyes, mouth and nose.

-Wash your hands before you eat.

-Wash your hands after you have been to public places.

-Wash your hands after you use the toilet.

Things to do to keep safe from coronavirus:

1. Wash your hands often with clean water and soap for 20 seconds.
2. Cough and sneeze into a tissue or your elbow.
3. Avoid touching your face, mouth, eyes and nose.
4. For now dont touch other people,keep 2 meters of space between you and others.
- 5.Avoid crowded ares and large gatherrings.
- 6.Stay at home and stay safe.

Some people worry about all the changes from coronavirus. They may worry about getting sick or worry about family members.

If you are worried, don't be afraid to share your feelings.

If you have questions or you have questions or you are feeling sick with high fever, coughing, sore throat or shortness of breath
